SUPPLEMENT TO APPLICATION TO CHANGE A WATER RIGHT

SALVAGE WATER USE

Section 85-2-402(2), MCA, provides the Department shall approve a change in appropriation right if the appropriator proves by substantial credible evidence the following criteria are met. The information requested by this supplement together with the application is necessary for the Department to process an application. It is the applicant's responsibility to provide credible, relevant, and factual information upon which the Department may rely to support the issuance of a change authorization.

- a) Provide evidence proving the proposed change will not adversely affect the use of existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued.
- b) Describe the proposed means of diversion, construction, and operation of the diversion works you intend to use and provide evidence proving the diversion, construction and operation are adequate.
- c) Provide evidence to prove the proposed change is a beneficial use of water.
- d) Provide evidence to prove the proposed water saving methods will salvage at least the amount of water asserted.

NOTICE

Your application cannot be processed unless this supplement is completed and returned with the application. Additional information is required if the proposed change in purpose of use or place of use involves 5.5 CFS or more and 4000 acre-feet or more of water per year or if the proposed change is for withdrawal and transportation for use outside the state.
